

Help Keep your Heart and Bones Strong

With an Amazing Nutrient Combination

Adding Omega-3 to your diet can contribute to a **balance of immune functions** that help keep you healthy. With the addition of vitamin D, it's the perfect complement for **optimized bone, brain and heart health.**

While **eating certain fish can provide omega-3 fatty acids**, the truth is, not many of us consume the correct number of servings to benefit from them. Since it's difficult to get the **omega-3s and vitamin D** you need, we made a **supplement that provides both.**

Break barriers with our Omega-3 with Vitamin D₃ supplement today!

Benefits:

- Helps support cardiovascular and heart health.
- Helps support brain health and function.
- Supports calcium absorption.
- Has a subtle lemon flavor added to help you avoid those fishy burps.
- Two capsules provide 8,2 µg of vitamin D₃, an excellent source of Vitamin D.

FUN FACT

Omega-3 fatty acids are essential because the body can't produce them! The only way to get them is from diet or supplements.

Om saam met 'n normale, gesonde, gebalanseerde dieet en matige oefening gebruik te word.

Please read the product labels for detailed information.

Keep This Product Cool

During periods of hot weather and/or while shipping to areas experiencing hot weather, the Omega-3 capsules may soften and stick together. While product efficacy is unaffected, consuming capsules that stick together, or which have melted together, may be unpleasant. For this reason, we suggest storing our Omega-3 product in a cool place and ordering enough of our Omega-3 product during cooler months so as to avoid possible heat-related shipping problems during hot weather.

Complementary Products

The following Mannatech supplements combine well with Omega-3 with Vitamin D₃:

For Immune System Support:
Advanced Ambrotose

For heart health:
CardioBALANCE®
