# ABOUT MANNATECH

## A PASSION FOR PEOPLE, WELLNESS AND OPPORTUNITY

People all over the world have benefited from using and sharing Mannatech's life-changing products for over 25 years. Backed by rigid scientific study, exclusive ingredients and our unwavering commitment to quality, our products come with a worry-free 90-day money-back guarantee. Plus, our unique social model provides vital nutrition to malnourished children in need with every purchase. You'll see and feel the difference you can make with Mannatech.

### Science That Transforms

Your body has trillions of cells that communicate with one another. When cells don't receive proper nutrition, whether from age, diet or other environmental factors, they don't communicate well. But with the right kind of nutrition, such as the naturally-sourced and Glyconutrient-rich products created by Mannatech, your body can perform at its optimal best and do amazing things! How do we know? Mannatech is the pioneer of groundbreaking Glyconutrient technology that's revolutionizing nutrition, immune health, weight loss, skincare and more.

Glyconutrients support cell-to-cell communication through a blend of specific plant saccharides. Studies have shown that Glyconutrients are often inadequate in typical modern diets, so it's important to receive them from other sources, like many of our products.
