

Help Guard Yourself Against Harmful Toxins With a Boost of Antioxidants

The world is constantly finding ways to attack your body. From stress, pollution, processed foods and even ageing, your body produces free radicals on a regular basis. This creates a chain reaction in your cells that can lead to damage and challenge your overall health.

Fight back against oxidative stress caused by free radicals with our scientifically proven Ambrotose AO[®] capsules. With superior protection against oxidative stress, the real-food ingredients in our capsules **help keep you guarded** against the stresses the world is putting on your body.

Start winning the fight against toxins by ordering Ambrotose AO today!

Benefits:

- Fights against free radicals to help you stay healthy.
- Helps the body cope with the harmful effects of oxidative stress.
- An abundance of vitamins C and E help guard your body's cells.
- Additional immune support.

FUN FACT

There is nothing you can do to stop the production of free radicals. In fact, even the healthiest person may have free radicals attacking their cells an estimated **10,000 times every day!**

COMPLEMENTARY PRODUCTS:
Use Ambrotose AO to improve the effectiveness of these Mannatech products:

PLUS™ —

Get back to feeling like yourself again. Give your endocrine system a little extra help from naturally sourced ingredients. With support for your bones, prostate, colon and breasts, PLUS caplets deliver vital nutrients for a better life.

Advanced Ambrotose® —

Ambrotose powders are formulated with a specialized blend of special plant saccharides called Glyconutrients to support your immune system. With an added bonus of digestive system support, these powders help keep your health at its best.

Manapol™ —

Manapol is a 100% aloe vera gel powder that's harvested from volcanic soil for ultra-purity. You can't get a richer, natural source of Glyconutrients anywhere in the world. Manapol powder includes a standardized amount of the very high molecular weight Acemannan polysaccharides (1-2 million daltons) as defined by the American Chemical Society. We believe Manapol is a more effective glyconutrient source.
