

1. What are the benefits of Mannatech Men's PRIME 7?

Mannatech Men's PRIME 7 is a comprehensive men's health and herbal formula, specifically designed to support a man's modern active lifestyle and health. When taken daily as directed, Mannatech Men's PRIME 7 capsules can:

- Improve sex drive & libido*
- Support healthy erectile function*
- Improve stamina & vitality*
- Support healthy testosterone levels*
- Support prostate health & healthy urinary tract*
- Support cardiovascular health*
- Support mood and help maintain normal hormonal balance*

What are the ingredients in Mannatech Men's PRIME 7 that make it so effective?

Fenugreek seed extract

Fenugreek (*Trigonella-foenum-graecum*) is an aromatic, clover-like herb native to the Mediterranean region, southern Europe and western Asia. It is known for its ability to support healthy testosterone levels and sexual desire.*

Mucuna root extract

Mucuna (*Mucuna pruriens*) is a creeping vine that grows throughout India and has a long history of usage in traditional Ayurvedic practices. The root extract has been used for centuries to help increase libido and energy, optimize blood sugar, and support mood. It is well-known for its powers as an adaptogen.* It has been shown to support the neurotransmitter dopamine, which is key to optimal brain health, sex drive and sexual function.*

Longjack root extract

Longjack (*Eurycoma longifolia*) is a shrubby tree common to southeastern Asia. Its root has a long history of use as an aphrodisiac, and is also known as a general adaptogen used for resisting stress, supporting healthy testosterone levels, and supporting healthy libido and sexual virility.*

SENSORIL® Ashwaganda

The herb Ashwaganda (*Withania somnifera*) has been used for centuries as an adaptogen to increase resistance to environmental stress, and SENSORIL is the best-selling Ashwagandha extract in the market. It is derived from a unique blend of the leaves and roots of *Withania somnifera* and is organic and non-GMO. SENSORIL has been available in the United States market for more than 12 years. It is supported by 10 scientific studies.*

Stinging Nettle root

Stinging Nettle (*Urtica dioica*) is an herb that grows in temperate and tropical regions worldwide and is listed in the European pharmacopoeia. Its root has been shown to support prostate health and helps block the conversion of testosterone into estrogen.*

Shilajit

Shilajit (*fulvic acid*) is a mineral-rich plant secretion found in central Asia mountains. The substance provides fulvic and humic acids which energize cells and provide a feeling of rejuvenation. It boosts mood, supports testosterone levels, supports healthy blood pressure and heart health.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Saw Palmetto

Saw Palmetto (*Serenoa repens*) is a small palm tree native to the West Indies and the southeast coast of North America. Its berries are used to help improve sexual vigor and as an aphrodisiac.*

Maca root

Maca is a Peruvian plant with strong adaptogen properties that supports hormone balance, help increase libido, lifts mood and boosts stamina.*

Horny Goat Weed

Horny Goat Weed (*Epimedium grandiflorum*) is an herb used in traditional Asian medicine for over 1,000 years. It is used to help enhance sexual function.*

Eleuthero root extract

Eleuthero (also known as *Eleutherococcus* or *Siberian ginseng*) is a type of ginseng from Siberia. Traditional Chinese medicine has used it to treat lethargy, fatigue and low stamina. Considered an adaptogen, it increases resistance to stress.*

Arabinogalactan[§]

Sourced from larch trees, Arabinogalactan supports the proliferation of the beneficial bacteria *Lactobacillus plantarum* found in the colon.*

Gum tragacanth

Gum tragacanth is a natural gum obtained from the dried sap of the flowering plant *Astragalus gummifer*. It provides Glyconutrients that support cell-to-cell communication and the immune system.*

Aloe Vera Extract[‡]

Sourced from aloe vera plants grown in Costa Rica, Mannatech's proprietary aloe vera extract (Manapol[®]) contains mannose-rich polysaccharides, also known as Acemannan, a key glyconutrient sugar believed to account for many of the benefits of aloe vera gel.*

2. How many capsules should be taken each day?

The daily recommended amount is three capsules. Each bottle provides a 30-day supply of 90 capsules.

3. Is Mannatech Men's PRIME 7 vegan friendly?

Yes! It is also Gluten-free, Dairy-free, Soy-free, MSG-free and synthetic-free. Mannatech Men's PRIME 7 is made only with scientifically sound ingredients that are backed by human scientific support.

4. Can I use Mannatech Men's PRIME 7 with other Mannatech products?

Yes. Mannatech Men's PRIME 7 capsules can be taken with any/all of Mannatech's products. We specifically recommend:

- **GinMAX™** - It supports mental and physical energy*
- **PLUS™** - It also supports hormonal and cardiovascular health*
- **EMPACT+™** - It provides natural energy for active lifestyles*

5. Who is Mannatech Men's PRIME 7 suitable for?

While Mannatech Men's PRIME 7 may be taken by adult males ages 18+, it is intended for men 30+ in age. These are men who are concerned about their health and about feeling healthy, energetic and strong. It's for a man who wants to feel younger and maintain good prostate health, urinary function and a stronger libido.*

6. Can Women take Mannatech Men's PRIME 7?

Mannatech Men's PRIME 7 is intended for adult males. Please visit Mannatech.com for other great products to support women's health.

[‡]Manapol[®] Aloe Vera Extract

[§]AmbroGuard Arabinogalactan powder

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

7. How does Mannatech Men's PRIME 7 compare to Viagra®?

Viagra is a pharmaceutical drug most commonly used to treat erection problems in men. Mannatech Men's PRIME 7 is a nutritional supplement intended to support the health and vitality of the entire male reproductive system. It is a comprehensive, targeted health product formulated specifically to support men's endocrine health, mood, energy and libido.*

8. Is Mannatech Men's PRIME 7 a hardcore testosterone booster?

Mannatech Men's PRIME 7 is a men's health product that can be taken to support healthy testosterone levels, but should not be considered a testosterone booster.

9. Are there side effects to Mannatech Men's PRIME 7?

As with any supplement, if you are taking medication, have a health condition or are planning a medical procedure, consult your health professional before use.

10. Is Mannatech Men's PRIME 7 safe to take if I have a heart condition?

There are no anticipated negative impacts on the heart or the cardiovascular system associated with Mannatech Men's PRIME 7. In fact, it is formulated to support cardiovascular health*. However, as with any supplement, if you are taking medication, have a health condition or are planning a medical procedure, consult your health professional before use.

11. Will Mannatech Men's PRIME 7 help me build muscle?

While Mannatech Men's PRIME 7 is not a muscle-building product, it supports the human functions needed to maintain a healthy workout. It supports stamina, energy levels and cardiovascular health to help keep you on the go, without any of the synthetics that are so common in today's workout products.*

12. Does Mannatech Men's PRIME 7 contain HGH or anabolic steroids?

Unlike many men's testosterone products on the market, Mannatech Men's PRIME 7 is made with naturally sourced ingredients and does not contain Human Growth Hormones or anabolic steroids.

13. Do Mannatech Men's PRIME 7 capsules need to be taken with food?

Mannatech Men's PRIME 7 capsules can be taken with or without food with no change in its efficacy.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

14. How does Mannatech Men's PRIME 7 compare to Mannatech's PLUS™?
