

Enzymes to Help Support Digestion

For a Happier Tummy

Not actual size.

GI-Zyme® capsules are formulated to **help improve digestion and nutrient absorption** so you can process foods better. Including certain enzymes used by the body, these capsules are formulated to **help your system break down ingredients** you may have difficulty metabolizing.

They are also formulated to give your body's ability to absorb nutrients a boost so you can get the maximum benefits from foods and supplements. Taking GI-Zyme before meals may help you digest certain foods better so you can have a more complete diet.

Help your body digest better by taking GI-Zyme today!

Benefits:

- Formulated to help improve digestion.
- May help ensure that the maximum level of nutrient absorption is attained.
- Formulated to support digestive absorption.
- Formulated to assist in breaking down proteins, fats and carbohydrates.
- Provides enzymes functioning at a wide range of pH activities.

FUN FACT

Enzymes help accelerate chemical reactions in your body. This is why the right ones may support healthy digestion and proper metabolism of foods.
