

UTH® REJUVENATION CRÈME (SKU #23401) PRODUCT TRAINING SHEET

PRODUCT BASICS

FULL PRODUCT DESCRIPTION: Boost your body's natural potential to support radiant, healthy skin with the help of Glyconutrients[†] and a patented microsphere delivery system formulated to nourish your skin in a time-released pattern. Our lightweight formula glides on smooth to reduce the appearance of fine lines and wrinkles, while protecting against future damage associated with aging.[‡]

DIRECTIONS: After cleansing with your Uth Facial Cleanser, apply Uth Skin Rejuvenation Crème to skin morning and night. Starting at the base of the neck, stroke upward covering the entire neck and face area. Follow up with the Uth Moisturizer.

BENEFITS:

- Penetrates many layers of the skin to help reduce the appearance of fine lines and wrinkles.[‡]
- Provides a firmness, radiance and luminosity.[‡]
- Developed to deliver naturally-sourced Glyconutrients, herbal components and Manapol® powder to the deepest layers of the skin.
- Includes naturally-sourced glycans to help your cells communicate with each other.
- Includes proprietary herbal components to help fortify the skin matrix and help protect against damage associated with aging.
- Hypoallergenic, paraben-free, does not clog pores and is safe for use around the eyes.

FEATURES:

- Gluten-free
- Allergy tested
- Dermatologist tested
- Paraben-free
- Hypoallergenic
- Never tested on animals
- Contains naturally sourced ingredients
- No artificial colors

- It also contains a proprietary herbal component to help protect against damage associated with aging.

WHAT IT IS NOT: Daily moisturizer

TOP FAQ:

What are the advantages of using the complete 3-Step System?

By using all three steps in the Uth® Face system, you can achieve beautiful, age-defying skin. Our easy, 3-Step System utilizes nature's most prized beauty secrets to cleanse, revive and moisturize your face. This system gently improves skin tone, firmness, elasticity and reduces the appearance of fine lines and wrinkles. ‡

Why should I use both the Uth Moisturizer and the Uth Skin Rejuvenation Crème?

These two products have their own unique ingredients that independently provide nourishment and restorative benefits. Additionally, they work together to maximize the overall results you will see from using the Uth 3-Step System.

Why do I feel a tingling sensation after applying Uth Skin Rejuvenation Crème?

This may be caused by sensitivity to the amount of bioactive ingredients in the formulation. Some skin types may be more sensitive than others. If you have sensitive skin, start gradually by using the product every three to four days over a four-week period. Then increase use to every day. If you continue to experience tingling or irritation that lasts more than three days, discontinue use.

Do I need to wait any period of time before applying another skincare or makeup product after Uth Skin Rejuvenation Crème?

Yes. For best results, wait five minutes before applying another product.

Why does color of the Uth Skin Rejuvenation Crème vary and change over time?

The color change over time in Uth Skin Rejuvenation Crème is due to astaxanthin. This ingredient is where the dark color comes from and it fades over time. There have been no changes to the Uth Skin Rejuvenation Crème formula. Mannatech's skincare products do not contain parabens and because of this, it is natural for the product to change slightly in color as the product ages.

Why are Glyconutrients important for skincare products?

In skincare, similar to ingesting supplements, Glyconutrients help optimize the results of each product. They absorb down into the deepest layers of skin, providing hydration and nourishment your skin needs.

COMPLEMENTARY PRODUCT SECTION :

Uth Facial Cleanser: Gentle enough for daily use, the Uth Facial Cleanser helps your skin feel smooth and polished, removing dirt and irritants, revealing a brilliant glow.

Uth Moisturizer: The Uth Moisturizer leaves your skin feeling supple, firmer and more hydrated, using antioxidants that reduce the appearance of premature aging.[‡]
